

**Legacy**

A diagram illustrating a legacy layout. It consists of two horizontal rows of four rectangular boxes each. The top row contains boxes labeled A, B, C, and D from left to right. The bottom row contains boxes labeled E, F, G, and H from left to right. The word "Legacy" is written in large, bold, black font across the center of the diagram.

**Orientation**

A diagram illustrating an orientation layout. It consists of two horizontal rows of four vertical rectangular boxes each. The top row contains boxes labeled A, B, C, and D from left to right. The bottom row contains boxes labeled E, F, G, and H from left to right. The word "Orientation" is written in large, bold, black font across the center of the diagram.

**Order**

A diagram illustrating an order layout. It consists of two horizontal rows. The top row contains three rectangular boxes labeled A, B, and C from left to right, followed by a larger empty space. Below this space is a single rectangular box labeled D. The bottom row contains three rectangular boxes labeled E, F, and G from left to right, followed by a larger empty space. Below this space is a single rectangular box labeled H. The word "Order" is written in large, bold, black font across the center of the diagram.

**Density**

A diagram illustrating a density layout. It consists of two horizontal rows of four small rectangular boxes each. The top row contains boxes labeled A, B, C, and D from left to right. The bottom row contains boxes labeled E, F, G, and H from left to right. The word "Density" is written in large, bold, black font across the center of the diagram.
